Cherry Finish—3 pieces	10.00	7.50
Solid Oak, carved back, patent upholstered seats	20.00	15.00
8 Mattress Couches—\$5.50.		

I want to be the jeweler who first comes into your mind.

FINE collection of gems is very beautiful—rich, rare coloring is to be found there that it is vain to search for elsewhere, and the effects of the refracted light is gorgeous in its brilliancy.

I have jewelry of all sorts and my prices are extremely low.

Orders by mail will receive most careful attention—and though the selection in that case would have to be left to me, I will willingly change any article which does not please.

You can derive pleasure from looking at my stock, even if you want nothing.

C. H. DAVISON,
Jeweler,
1105 F Street N. W.

AGAINST A THIRD TERM.

Perry Belmont Quotes Unwritten Law on the Subject.

Newport, Aug. 24.—Perry Belmont, once chairman of the House Committee on Foreign Affairs, and ex-minister to Spain, discussed the Presidential problem. He was asked: "What do you think generally about a third term in the Presidency and the much discussed third term for Mr. Cleveland, particularly?"

"To that answer, as Mr. Whitney once replied in reference to another matter—the President can be counted upon to do the right thing at the proper time. If, therefore, Mr. Cleveland shall declare to the country that he will not accept a third nomination, he will be in a position to do for his party a service as conspicuous as that of Tilden, when he authorized his friends to support Cleveland for the nomination. There is an unwritten law making a third term, consecutive or not, an absolute impossibility for any man."

PIGRIMS TO LOURDES.

Zola's Great Novel Keeps None From the Waters.

Lourdes, Aug. 24.—Fourteen railway trains, loaded with sick, maimed, and otherwise incapacitated persons, arrived here from Paris today and their wretched occupants are lying helpless about the station clamoring to be carried to the sacred grotto.

There are now 25,000 persons here waiting to be dipped in the healing water, many of whom appear to be at death's door. Seventeen of the occupants of the last train which came from Paris died on the journey.

EUSTIS WAKES UP.

The Minister's Secretary Will at Last Go to See Waller.

Paris, Aug. 24.—Mr. Newton B. Eustis, secretary of the United States embassy, accompanied by Mr. H. A. Alexander, an American lawyer, will leave Paris tonight for Chateaufort for the purpose of paying a visit to ex-Consul Waller, who is serving his sentence in that institution.

Strike at Rand, McNally & Co's.

Chicago, Aug. 24.—Forty-two press feeders in the employ of Rand, McNally & Co. went out on strike yesterday. They are members of the Franklin Press Feeders' Union, and their action was due to the refusal of the foreman, who belongs to the international union, to discharge four non-union feeders.

Killed by a Bureau.

Plainfield, N. J., Aug. 24.—While assisting to carry a bureau up stairs in the Crescent Hotel, North Plainfield, last night, Albert Taylor lost his balance and fell down the flight of steps. The bureau tumbled down after him and struck and crushed in his chest. He lived but a short time afterward.

Reclus Will Return.

Paris, Aug. 24.—Paul Reclus, the anarchist agitator, who, though absent from France, was recently sentenced to a term of imprisonment, has informed the public prosecutor here of his intention to return and surrender himself to the authorities.

Sudden Insanity.

Rome, Aug. 24.—Information has been received here that Big. Achille Fagnolle, under secretary to the Italian minister of commerce, and member of the Chamber of Deputies, suddenly became insane in the baths at Levico, in the Tyrol, today.

DEPENDS ON THE B AND O

North Capitol Street Grade Affected by the Road's Plans.

COL. WILSON SO INFORMED

Company's Intentions Will Guide the Establishment of the Grades—Congress Alone May Change Street Names—Minor Affairs of the District Briefly Presented.

The grade to be hereafter given to North Capitol street, between C and D streets, depends altogether upon the future plans of the Baltimore & Ohio Railroad Company and nothing can be done, the District Commissioners say, until the company declares its intentions.

Should the company ever elevate its tracks, then North Capitol street will be graded in a straight line from C street to the present level of the B. & O. tracks, passing under the elevated roadway, but until the company makes a move, voluntarily or by compulsion, the condition will remain unchanged.

This information was communicated to Col. John M. Wilson today in response to a letter of inquiry upon the subject.

STREET DESIGNATION.

Mrs. Emma Cully recently wrote to the Commissioners asking that certain street designations be changed to a uniform system to avoid confusion, and she was today advised that the street running east and west, between S and T streets, has six different designations in as many squares, and the desired change can only be effected through Congressional action. Thenceforward street referred to is known as Westminster, Pierce, Blake, Swann, Oregon avenue and Cedar place, all within a short distance. The trouble occasioned to the seeker after a locality is what occasions the demand for a change.

GARBAGE DISPOSAL.

Mr. C. A. Ball, of Baltimore, will be given an opportunity on the 27th instant to explain his system of garbage disposal.

FIREMAN FINED.

Private R. S. Reed, of the fire department, was today ordered to pay a fine of \$25 for violation of Rules 10 and 16 of the regulations.

HE WAS TOO VIOLENT.

Donnelly Fined for Assaulting Veteran Dixon.

Patrick J. Donnelly, assistant manager of the Central Union Mission building, was charged in the police court today before Judge Mills with assaulting George Dixon, a veteran of the late war, who resides at the temporary Soldiers' Home on Missouri avenue.

Dixon entered the mission building Thursday afternoon with a lighted pipe in his hand, and went down in the basement. Donnelly approached the old soldier and ordered him out. Dixon was slow to comply with the order and the manager used force.

During the scuffle the old man received a blow in the mouth, cutting his lower lip through to the teeth. After securing a warrant for his arrest, he proceeded to the Emergency Hospital where Dr. Furlong dressed his injury, taking eight stitches in the lip. Judge Mills held that the defendant had used unnecessary violence in getting the old man out of the building and imposed a fine of \$20, which was paid.

NEW GUNBOATS NAMED.

Nashville and Wilmington Are the Cities Honored.

Acting Secretary McGee today announced the names selected for the three gunboats under construction at Newport News, Va.

No. 7 will be called the Nashville, after Nashville, Tenn.; No. 8, the Wilmington, after Wilmington, Del., and No. 9, the Helena, after Helena, Mont.

The name Undine has been selected for the naval tug now being built at Mare Island, Cal. The word is of Indian derivation and was borne by a gunboat in the late war.

Treasury Receipts.

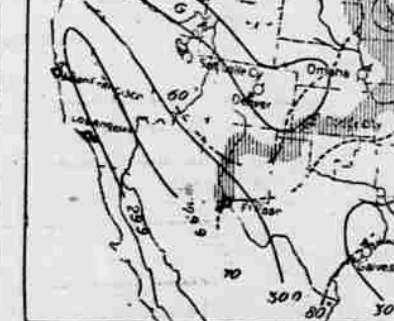

The receipts from internal revenue today were \$378,514; from customs, \$42,996; and miscellaneous, \$54,629. The national bank notes received today for redemption amounted to \$200,492.

His Scalp Laid Open.

John V. Thomas, a colored boy, was today laid out by a board of health on his head. He was taken to the Emergency Hospital, where it was found that he had received a lacerated wound of the scalp.

THE TIMES DAILY WEATHER MAP.

(Prepared at the United States Weather Bureau.)

Exploratory Note: The above map shows the weather conditions prevailing over the country at 8 o'clock this morning. Eastern time. Solid lines are isobars or lines of equal air pressure, drawn for each tenth of an inch. Dotted lines are isotherms, or lines of equal temperature, drawn for each ten degrees. Shaded areas are regions where rain or snow has fallen during the preceding twelve hours. The words "high" and "low" show location of areas of high and low barometer. The symbols at the stations show the state of the weather and direction of the wind. Small arrows fly with the wind.

Today's map shows a ridge of high pressure extending from Florida to the North Pacific coast. The movement of the high area from the Middle Atlantic coast to Florida has retarded the development of the West India storm, reported yesterday to the southeast of Cuba.

The very long and narrow strip of rain extending from Newfoundland to New Mexico, about 2,900 miles long and 200 wide, is especially noticeable.

The temperature has risen in the Atlantic

States and has fallen in the Missouri Valley. Present indications are for fair weather and continued high temperature for thirty-six or forty-eight hours.

Forecast Till 8 P. M. Sunday.

For Maine, New Hampshire and Vermont, showers to-day and on the coast tonight, probably fair and slightly cooler Sunday; variable winds, becoming westerly.

For Massachusetts, Rhode Island, Connecticut and Eastern New York, showers this afternoon, followed by fair; probably slightly cooler Sunday afternoon; westerly winds.

For the District of Columbia, Eastern Pennsylvania, New Jersey, Delaware, Maryland and Virginia, fair; southwesterly winds.

MISTAKE IN STENOGRAPHERS.

The Rural Gentleman Dictated His Correspondence to the Wrong Girl.

The clerks of the Brown Palace are still laughing over a little incident that occurred in the hotel during the N. E. A. convention. The story has never been told in print. A gentleman from one of the central districts in Illinois incidentally heard that there was a corps of typewriters in the hotel for the free use of the delegates. There were several stenographers and typewriters in the headquarters, and a sign near the door announced that they were free to the delegates. The hero of this incident thought that this would be the time and place to catch up on his correspondence, and hastening from his room to the office, he discovered the hotel stenographer with his typewriter located near the clerk's desk.

"Is that the stenographer?" he inquired. "Yes, sir," replied the clerk, and the gentleman was soon beside the young lady. "May I dictate some letters to you?" he inquired of the young lady.

"Certainly," replied the girl, and he went at it. He dictated several business letters, then he talked out letters to his brother-in-law, his sister-in-law, his mother, his three cousins, an uncle, an old college friend, his mother-in-law, and the pastor of his church at home. It took from 2 o'clock in the afternoon until after 4, but finally he had written to all he could think of and quit for lack of correspondents to whom he could send his thoughts and vivid descriptions about Colorado and the convention.

"Shall I leave the letters with the clerk?" asked the stenographer as she prepared for work.

"Yes, thank you," replied the gentleman, and went off about his business, well satisfied with his afternoon's work.

The next act of the play was when the gentleman was leaving the hotel and asked for his bill. One of the first items that caught his eye was "To stenographer, dictation and typewriting, nineteen letters, \$8." There was a scene, of course, and it took the clerk half an hour to explain to the man where he had overheard himself dictating to the wrong stenographer. He paid the bill, of course, and remarked as he did so, "I'll just have to charge that to my dampcloth account."—Rocky Mountain News.

ANOTHER CHINESE OUTRAGE.

Rev. D. Z. Sheffield Injured by a Crazy Native.

In the mail received this morning at the State Department was a dispatch from Minister Denby containing the report of another assault upon an American missionary in China, which has not heretofore been made public.

Mr. Denby says that on July 7 at Tung Chou, a town about thirteen miles from Peking, the Rev. D. Z. Sheffield, an old and highly respected American missionary, was attacked by a crazy native carpenter and his brother and severely cut with a knife.

The two assailants were arrested, and at the date Mr. Denby wrote were in jail awaiting trial. Mr. Denby added: "The matter will create a great stir in China, but is absolutely without foreign political significance."

BENEDICTINE BREWERY.

Satisfactory Settlement of the Trouble Is Anticipated.

The protest against the maintenance by the Benedictine monks at St. Vincent's Abbey, Beatty Westmoreland County, Pa., of the brewery established by them some time ago, is still under consideration by Mr. Satochi, the Papal delegate.

A satisfactory result of the affair is said at the legation to be assured, and that as soon as the monks can dispose of the property they will do so. As was stated at the time the brewery and its management were discussed by the convention of the National Catholic Total Abstinence Society in New York, the monks had no intention or desire to affront the temperance sentiment of the nation and of the church, and that they would doubtless follow the example set by the Augustinian monks in the same State a number of years ago, in like circumstances, and abandon their connection with the brewery in due time.

Chinese Missionary's Opinion.

Toronto, Ont., Aug. 24.—Mrs. Anna Bee, formerly of this city, who has been doing missionary work in China for the past seven years, writes that she and her husband had a narrow escape from assassination during the recent uprising. Mrs. Bee says the servants in the employ of the missionaries were in a majority of cases faithful, and that but for this, more would have been slain. In her opinion, the revolution is by no means over.

Clothing Thieves Held.

Daniel Robinson and William Woods, who were arrested by First precinct police, for breaking into and robbing the tailoring establishment of Jacob Stine, at No. 621 F street northwest, were given a preliminary hearing before Judge Mills this morning and committed to jail to await the action of the grand jury.

TO SELL THE PROPERTY.

Kirby Estate in Court on a Trustee's Petition.

Helen R. Arnold today brought suit in equity against Samuel G. Kirby and other legatees under the will of the late Samuel Kirby, asking that the court direct the sale of Washington realty left by the testament, aggregating \$70,623 in assessed value.

The bill directed that the sale be made ten years after the death of the testator, but at the expiration of the time, the bill recited, the values of real estate were so depreciated that the sale was not asked for.

Napoleon Relics Must Pay.

The Treasury Department has declined to admit, free of duty, the clothes and sword of the Duke of Wellington, worn by him at Waterloo, and Napoleon's hat and sword, worn by him on the same occasion. The intention of the importers was to exhibit them in this country for pay.

Mr. Field's Appreciation.

Washington, D. C., Aug. 23, 1895. Editor Times: I sincerely appreciate your very kind article in the Times of this date, concerning my answer to the recent charges made against me. The spirit of fairness exhibited by you is well worthy of emulation.

Where the Ships Are.

A cablegram announcing the arrival of the Yorktown at Chefoo and a telegram announcing the arrival of the Amphitrite at the Portsmouth navy yard was received at the Navy Department today.

Fort Monroe, Va., Aug. 24.—The monitors Lehigh and Catskill, from Norfolk, passed in tow at noon for League Island.

To a Higher Court.

Mr. Ernst Gerstenberg is going to resist to the law's limit, the order made on yesterday, by Judge Root, for the slaughter of his favorite dog, "Blissmark."

The matter will be carried into the higher courts, he said to-day, and a test case made to decide whether the Commissioners have a right to dispose in such manner of one's personal property.

If there's Anything You need

new now it's likely to be pants.

You can have any pair in the house now for a third less than original prices—and some of 'em are heavy enough for late fall wear.

All the suits are at 33 1/3 per cent discount, too.

It's costing us a "pretty pile" to clear out the summer goods—but they've got to go.

Think of what you'll need next summer.

Eiseman Bros
Cor. 7th and E Sts. N. W.
No Branch Store in this city.

HE STOLE AN ABACUS.

Fitzpatrick May Count With It His Days in Jail.

Frank Fitzpatrick has for some time been looking with longing eyes at the queer implement and apparatus used by the Chinese in their daily work. He wanted a long pipe, a pair of felt sandals and last but not least an "abacus," which is the machine the almond-eyed Mongolian uses to count up his possessions and calculate the cost of a "Metician man's" wash.

Fitzpatrick looked into Sam Wah's place and saw the abacus was unguarded, and soon it was his. Officer Harbison found him soon after indulging in his heart's content in fidgeting the beads and examining the clever workmanship.

His love for the curious, and the fancy to which it led him, caused Fitzpatrick to receive a sentence of sixty days from Judge Mills this morning.

MRS. BITTING MAY RECOVER.

Asylum Authorities Think Her Insanity Is Only Temporary.

A marshal's jury today listened to evidence in the following cases: Eleanor Biting, Edward Pine, and Sarah Casey, alleged lunatics.

Mrs. Biting was thought by the jury to be suffering from only a temporary aberration of the mind, caused by physical ailment and worry. She has been in the hospital since last Saturday, and the asylum authorities recommended that she be kept there for some time longer or be committed to the care of responsible parties.

She lived with her husband on the Foxhall road. Mr. Biting died on August 12 and was buried two days later. The woman became deranged during his illness, and was reported to have no remembrance of her husband's death or funeral.

PEACE IN BRAZIL.

War Center at Rio Grande do Sul Now Dispersed.

New York, Aug. 24.—The Herald's special cable from Buenos Ayres says: Rio Janeiro advises state that the civil war which has so long convulsed the state of Rio Grande do Sul, is practically at an end.

With the appearance of President Moraes the terms of peace have been signed by the generals in command of the government troops and also by the rebel general, Tavares. There is great rejoicing in all parts of Brazil. In the bill imposing a heavy tax upon all foreign life insurance companies, with which the Brazilian government has gone to the President for his signature.

THREEMEN MANGLED.

The Terrible Work of an Infuriated Animal.

New York, Aug. 24.—A Willvate, Ind., special says that Jacob Reich and his two sons were mangled to death by a bull yesterday. Mr. Reich, who was first attacked, was trampled to death by the crazed animal.

The two sons went to the assistance of their father. They were also attacked and fatally injured, the younger son being impaled on the bull's horns. The bodies of the three men were frightfully mangled.

SUGAR BOUNTY DECISION.

Mr. Bowler Is Ready to Begin Its Preparation.

Comptroller Bowler has begun the preparation of his decision in the sugar bounty case. The last brief of counsel, that of Mr. Semmes, of New Orleans, is now in hand, and there is no other cause for delay.

Ex-Senator Manderson, in addition to filing his brief, will be here in person Monday to further confer with the Comptroller. Mr. Bowler expects to complete his decision by next week.

Again Those Fateful Trolleys.

New York, Aug. 24.—A trolley car collision that occurred at 6 o'clock this morning in Brooklyn badly frightened about 100 passengers. Car No. 1153 of the Brooklyn Heights road and No. 283 of the Brooklyn and Coney Island line came together with a crash at Union street and Hamilton avenue. Both cars were smashed. Motor-man Bolet, of No. 1153, received dangerous injuries. There was a panic among the passengers, both cars being full but none of them was hurt.

DEAD UNDOUBTEDLY.

So State Department Says of Vice Consul Cowles.

Westfield, Mass., Aug. 24.—There is little doubt that John Phelps Cowles, of this place, has met his death in South America. A recent communication from the State Department in Washington says that investigation by the United States consuls at Granada, Venezuela, and Managua have failed to disclose any trace of him, living or dead, and it is feared that he was killed during one of the frequent insurrections in the vicinity of Granada more than two years ago.

Mr. Cowles was appointed in 1880 by President Hayes vice consul and interpreter in Foo Chow, and held the place until near the close of President Cleveland's first administration, returning to the United States in 1891.

He was married in Foo Chow in 1885. Mrs. Cowles was at that time head of the hospital built for her in the city by the Women's Foreign Missionary Society of the Methodist Church, under whose auspices she was sent to China, and she capably filled the position during eight years. She then returned to America.

PRACTICALLY PRISONERS.

Condition of Commission Investigating Chinese Outrages.

London, Aug. 24.—A dispatch from Shanghai to a news agency says that Commander Newell, of the United States cruiser Detroit, has gone to Kueibing for the purpose of consulting with J. C. Hixson, United States consul at Foo Chow, in regard to the landing of an armed force for the protection of Hixson and the European members of the commission investigating the recent massacres.

The members of the commission are now practically prisoners.

IN AN ATTIC.

That Is Where Susan B. Anthony Will Do Her Work.

Rochester, N. Y., Aug. 24.—Mrs. Susan B. Anthony is fitting up the attic of her residence on Madison street as a study, and has engaged a lady stenographer.

With her assistance Miss Anthony intends to collect and assort her valuable autograph letters, memoirs, etc. She has intact her correspondence with Elizabeth Cady Stanton during their forty years of acquaintance. Miss Anthony announces that hereafter she intends to remain at home more and do her business by correspondence.

She will give up much of the traveling and speaking that has occupied her time for so many years, and leave it to the younger women, who, she says, are better able to endure the wear and strain of travel and public life. She has, as yet, fully recovered from her recent illness.

PINEY BRANCH PARKWAY.

Commissioners Suggest Changes in the First Section Map.

The District Commissioners returned today to the Highways Commission, consisting of Secretary Lamont, Secretary Smith, and Chief of Engineers Craighead, and proposed changes in the first section of the map of the first section of highway extension plans, with certain alterations suggested by the commission on the 6th instant.

In their letter of transmittal, the Commissioners invite attention to the width, over all, of Piney branch parkway, as shown on the original plans, with the request that it be conformably with the intention of the commission, as it is understood to be, the recommendation of an amendment to the Highway Commission act shall authorize the widening of the parkway so as to read "two hundred feet east of sixteenth street and two hundred and fifty feet west of sixteenth street."

PROPERTY AND LIFE LOST.

Block Burns at Cleveland and Three Men With It.

Cleveland, Ohio, Aug. 24.—Flames broke out in the Williamson Block, southeast corner of Euclid avenue and Monument Square, at 2 o'clock this morning. In five minutes the entire building, which has a frontage of 100 feet on each street, was a mass of fire. At 2:30 a. m. the building was gutted, only the walls remaining.

The handsome new Cuyahoga building caught in several places, and the firemen directed their efforts to save that structure. It is reported that three men were burned in the Williamson Block. The loss on building and contents will reach at least \$75,000.

CHOLERA IS BREEDING.

Outbreak Feared From the Korean Ports.

A letter received at the State Department today from Mr. Sill, United States minister to Korea, dated July 13, says that cholera was definitely reported in Cheumipo and a suspicious case had been detected in Seoul.

Mr. Sill says the sanitary condition in Seoul is very bad. At the date of his letter the rainy season had not begun, and streets and drains had not been flushed. Mr. Sill says that every hut has a filthy cesspool in front of it, discharging germs of disease, and it is feared that a cholera epidemic will occur like that of 1886, when the mortality was very great. The foreign community at Seoul is separated from the native quarter, and every precaution has been adopted to keep its streets clean.
